***** ***** ***** *****

"CLIPS, QUOTES, and COMMENTS" is issued on the first and fifteenth of each month, by the Borderland Sciences Research Associates --
--3524 Adams Avenue, San Diego 16, California, U.S.A. --

-- Twelve issues (6 months) for $5.00; six issues (3 months) for $2.50; two issues for $1.00. Contains only short articles and miscellaneous material, supplementary to the BSR bi-monthly ROUND ROBIN.
--- N. Meade Layne, National Director.

EXCERPTS FROM "COMING OF THE GUARDIANS

It is about two and a quarter billion years since man made his first attempt to live on the earth - and about seven billion years since the formation of the primaeval vortex from which the earth arose. Throughout all this enormous period of time (by your measurements, the people of the Discs, in their craft which we call KAREETAS, have been making periodic visits to the earth and studying it. All races of men have seen them. Five hundred thousand years ago they were well known to the dwellers in YU, the civilization of the Himalayas.

What does their present coming portend? The universe, the whole cosmos is expanding. It is like an explosion of the cosmos. You know that there are dwarf stars and also that there are super-novas. Now, these pass one into the other; each can become the other. This is also true of the island universes, which can and do change back and forth. This is the play of atomic energy, of magnetism, of attraction and repulsion. All the stars, the suns, are in effect huge dynamos...

These DISCS you are asking about - they do NOT belong to the world of three-dimensional matter. They come out of other and far greater densities. They come out of worlds of substance a hundred thousand times more dense than the matter which you perceive by your senses . . . Their materialization in your world is of the nature of an emergence (change of density or of vibratory rates. ml).

You ask: what does the coming of these Discs portend? I would say it portends in greatest part the expansion of your sun into a super-nova. There is an increase of cosmic radiation and a change in the chemistry of the earth. There is a crystallization of the outer crust and a breaking up of the inner strata, forming huge hollows into which the crust collapses. This means that your planet will be subject to violent quakes. The physical and chemical effects are being studied by the Space People, and for this reason they are often seen gathering samples of soil and water.

(Question: Is the future of our planet really known on your plane of existence?)

Yes --

(Question: An eminent occultist has recently said that "an incredible inter - planetary debacle is in the making." Have you any comment?)

I can go along with that.

(Yada di Shi'Ite: 1953

(from The Coming of the Guardians; pg 44. Mimeo book, BSR publication, 60 pgs. $2.00).

WHEN WILL YOU PEOPLE LEARN that there are worlds within worlds - that the etheric worlds interpenetrate with your plane and with each other. . . These saucers as you call them are not constructed on your planet, nor is it necessary to assume that they come from any other planet. It seems impossible to get it through your heads that objects can pass from an etheric to another level of matter and will appear to materialize there. This is a perfect analogue to the materializations witnessed in the seance room, which many of your learned men bear witness to . . . There will be many strange sky appearances. Watch for them. . . The wilful ignorance and hostility of your time toward etheric and astral studies is appalling. These visitors are not excarnate humans, but live in their own world, made of stuff which your senses cannot directly perceive, and which you therefore childishly imagine cannot be there at all. . , When it is mentioned that these things fly, walk, or crawl out of other space-time you call the ethers, everyone cries, "but they are solid!" Well, Hallelujah and bless you, my child! So they are, and so is the earth and billions of other bodies, but all depends on what one means by the term solid. It refers to only one of many states of matter. Neither your earth nor any other body came out of a void ... In the course of time these things (Discs) will tell their own story ....

Charles Lingford, in Coming of Guardians: Nov. 1953

pg.12

CALTECH SCIENTIST ** DR.H.A. Sturtegant in a recent presidential address to the AAAS, speaking of the atom bomb tests, remarked: It may be the possible gains are worth the calculated risk, but the risk is one to which the entire human race, present and future, is being subjected. Radiation affects the genes and leads to mutations. . . The probability of an effect in any given case may be very low but when millions are being exposed it is certain that some will be affected. . . The radioactive products of every new bomb exploded are widely dispersed over the earth. Every geneticist knows that any level of radiation is certain to be harmful when distributed over most of the inhabitants of earth. . " (Assoc. H.D.Clark)

(On May 7 last, Dr. Alfred W. Bellamy, Professor of Bio-physics, Univ. of Calif., expressed almost identical views. Dr. John M. Heslep, his Assistant, concurred, and said that most of the danger came from internal radiation, i.e., from plants and other foods. 'The air, streams and soil of California are radioactive, and the source is from industry and laboratories as well as from bomb tests'. . . Recent state - ments in the press are to the effect that the results of bombs exploded over Japan are now known to have been withheld and that a large number of malformed births have occurred.' . . The Atomic Age begins but it may have no successor.

MUSHROOM CLOUD over the mainland of Baja California was reported by the French Line motorship Chili, July 5 (?) '54; observed for an hour and a half. The ship was 17 miles off the coast of Ensenada, B.C. Origin unknown. (from a column article in Los Angeles Times of July 8, '54.

RUSSELL NEWS LETTER for 1954:

"You will remember that we stated two years ago that the human race had but nine years left in which to turn right about face in its human relations else it would perish. . . The time has now come to say that if mankind persists in using atomic fission to kill his neighbor, or for use in industry, he will not only exterminate his enemies but himself as well, for radioactive fission will gradually destroy our atmosphere ... The 44 bombs already exploded have started a long term drought cycle and over two million square miles of deserts and dust bowls . . . It will not take many years to destroy the four encircling walls (radio ceilings) which surround this planet . . . The planet has begun to dry up. Ice caps and glaciers are melting so fast that the ocean has risen nine inches, which threatens all coastal water supply with salt... The warming of the ocean has driven the fish ten degrees farther from the equator, and those within 100 miles of the last H bomb explosion are so radioactive that those who eat them are sickened. . .

(The Newsletter is published at Swannanoa, Waynesboro, Virginia).

(It is of some interest to recall, in this connection, that the Probert Controls repeatedly asserted (a) that the "fireballs" (many of them) were "wipers", sent out by the visiting Guardians to rid our atmosphere of certain dangerous parts of the atomic fall-out; and that (b) the radio ceilings were indeed seriously damaged, to the discomfiture and harm of the Etherian people (c) That the Etherians had set about to repair this damage, as much in their own interests as ours, and had succeded in confining the dangerous elements to our earth and its vicinity - ("Let Terra stew in its own juice! Shall we permit your folly to destroy even the Sun and his shining companionship!")

"NO MECHANICAL DEFECTS"!! June 14, 1954, in the rush hour period, 10 locomotives hauling passenger trains, radiating from Liverpool St., London, suddenly went out of action. Chaos was caused. Cause: "unsoftened water put injector feeds out of action". But many English railroad lines have long used unsoftened water, yet these have suffered no breakdowns and engine failures. . . On June 11, '54 all coaches on Allerton sidings were found to be on fire. Great damage, no solution.

Assoc. H.T.W.

JUNE 18, 1954. Again, at the same switchyard, the cars of the same boat train were found on fire, a guard's brakevan was badly damaged, and the roof of a depot shed burnt out. Now, it happens that the regions of these breakdowns and railroad fires, both near Liverpool and on the outskirts of London, have in 1952 and '54 been surveyed very closely by some quite remarkable types of flying saucers. Also, observers found that the various Commandants of the RAF stations and dromes to whom these UFO were reported, replied to inquiries: 'mum's the word officially - but we have forwarded reports ...

FINALLY, in a wooded section some 35 miles from London, and among other singular phenomena, this occurred: while many RAF planes were aloft a strange vertical pencil of light swept downward, passed below tree top heights and vanished. It was not a flare, nor a meteorite, and no plane crashed. It was in this area that strange subterranean noises were heard (Jan. 5, 1954) . . . (HTW)

(Assoc. H.T.W. suggests there is something planned and ominous about a slow but steady encroachment on the perimeters of large cities - London, New York, Chicago, San Francisco.

By coincidence (most useful word) a most trustworthy Associate writes Yr's Truly that the Guardian S.E. has sent word to the American Bahai to get out of the three U.S. cities just named - whatever that may mean - if anything - and if correct.

And since this seems to be our gossip number, here is the fairly well vouched for adventure of a distinguished physicist, lately much in the public eye. He left the Uranium plant in mid-morning, in his car, noticed a "brilliantly lighted" object ahead of him and pulled alongside of it. The light declined into the form of a very hot globe - a very large one. Out of it came "a man or a being", vibrating with heat, almost giant in size but well proportioned. He seemed to know the physicist and the two "visited for several hours". The "being' called himself Moroni, was much disturbed by the action of certain people in the AEC, and "feared they would cause great disasters ... All together and if true, a most instructive experience for a physicist. There ought to be a law requiring such interviews, to be reported in the Bulletin of the Atomic Scientists!

PENDULE SPEAKS: or, Radiesthesists to the rescue (we have heard from nearly everyone else). ASSOC. D.K. writes us: "My pendulum says the Saucers have established a base on the surface of this planet, in high mountains, with the permission of the Government involved - but won't say where. Do you know anything that would confirm or deny this?"

(Nope, we don't - and we're a bit disappointed with Plumb Bob, who must have gotten the red light from someone. No disrespect meant by the name we give it-or-him. HUNA people started it by referring everything to "George". But now is the time if ever, for Plumb Bob and George to get together on a check-up. Seriously, let's hear from users of the pendule on this particular question. An agreement, if any, would be very interesting, to say the least).

CORRESP. of Assoc.

E.S.S. - "K" planet: ESS calls attention to our M.P. Seance Memoranda, Part I, page 12, which contains excerpts from a communication by the Control Rama-Ka-Lao. He was talking about a so-called K planet as being the source of the Kareeta, a huge craft seen over San Diego, night of Oct. 9, 1946, and remarks:

> "People of the K planet have outgrown wireless; they use beams of light. They have made many efforts to reach us by wireless. The signals were received but not understood and the K people largely gave up the attempt...

Also at the bottom of page 13 another communicator is quoted as saying: "This supposed planetary body actually exists and is only about 10,000 miles from the earth, but is in the 4th dimension vibration and your instruments cannot detect it. It can

be detected by specially devised instruments using light vibrations . . . Many objects explode in passing from one dimension to another, especially if they enter the earth's atmosphere in doing so. (Dates of these two communications: Oct. 10 & Oct.13,1946).

Compare statement made recently (1954) by Dr. Gerald Light, that the earth possesses a number of small satellites, close by and in extremely rapid flight - and that at least one of these would 'approach' the earth - - that there were living creatures upon it, but unlike any form of life known to us here.

Note, that the 'approach' mentioned might mean a conversion of vibratory rates from one dimension to another. Note the long series of communications received from 'space' by wireless, as related by Dr. George Williamson. Note various press reports, that several well-known scientists are now studying or trying to study one or more "artificial" and newly discovered satellites. (They are probably no more "artificial" than is the moon; the repeated use of this word is a puzzle).

Assoc. ESS draws attention to many similar points, and I am not trying to develop any particular thesis based on them. I do want to say with all emphasis, that a close analytical study of the several thousand pages of communications received from the Mark Probert Controls, since 1946, if checked against present data, and against the mass of supernormal phenomena reported since that time, would certainly 'gravel and confound' the most bitter critic of the MP seances and Controls. **

We made a start at this, by publishing "The Coming of the Guardians", but the task as a whole is beyond our resources.

The results would be a startling demonstration of how much accurate, helpful, and factual information can be obtained from the "Other Side" - IF the proper approach can be made and the right contacts established.

We have repeatedly pointed out, that neither spiritualism nor occultism have been of service in dealing with the problem of the aeroforms, and with etheric cultures and races. Spiritualism is the religionistic approach, and in a broad sense no more dependable than any religious orthodoxy. But communication with excarnate humans is not the discovery or property of spiritualism. Rightly employed, as a scientific and occult operation, it is the hope of humanity. Cooperation between the planes is possible, practical, and essential. It is not a religion, a cult or a fad. It is in this spirit that we have published thousands of pages from the Probert communicators,

The other all-important help and knowledge comes from such strange and gifted personalities as Gerald Light. This is occultism and seership at a very high level. It is doubtless true that he is a "frustrated humanitarian". But where among the helpers of mankind will you find him who is not so described? There are many called holy men who have attained detachment and are unmoved by human suffering - but if truly so, how can they help us? And to be human is to be frustrated and to suffer.

Our confidence in Gerald Light is sanctioned and strongly approved by the Probert Controls - and G.L. has more than once offered them his respect and praise.

The present policy of Round Robin and other BSR publications is based on this conjunction - insofar as the BSR deals with esoteric and occult matters. And we consider these matters as being legitimate sources of factual and scientific information; therefore they integrate with our more rigidly scientific interests.

The separation of the scientific from the occult and esoteric is impossible, fictitious and absurd - a dichotomy - the worm at the core of scientific procedures

*----------

** Note: An article by the spiritualist writer Ed Bodin appeared in CHIMES for July, 1954, and describes a meeting held by Mark Probert in New York City on May 18 last. This very spiteful and ignorant attack illustrates once more the limitations of the "average" spiritualistic approach and adolescent thinking.

RECENT AND WORTH WHILE:

PENDULUM: A monthly digest of radiesthesia. - - about 17 pgs Markham House Press Ltd. 31 King's Road, London, S.W. 3, Eng. 2/3 d or 40¢. Often contains very useful and important information in the radies. field.

SSRS NEWSLETTER (Society for Social Responsibility in Science). Vol. 5 No.5, for June 1954. Gambier, Ohio. $1.50 per yr. Four-page folder, 8½ x 11".

THE ROUNDHOUSE: Pub. monthly by Neal Kearney, RR 3, Maquoketa, Iowa. 15 pgs., 4½ x 6½". Single .25 - 3 issues for .65. Year, $2.75.

INTERPLANETARY NEWS DIGEST: March 1954 (Vol. II No.1). Box 426, Joshua Tree, Calif. Five issues for $2.00; singles .50/

REPORT ON RADIONIC RESEARCH PROJECT. Pub. of Calif. Soc. of Chiropractic Radionic Research, 10746 Magnolia Blvd., No. Hollywood, Calif. Statistical & technical; 24 pgs. Bibliog. of about 12 titles in radionics. Copy on request.

RADIATION TRANSMITTER HANDBOOK, Bruce Copen. Single, .40. Inquire of Markham House, (v. 1st item above).

BRITISH JOURNAL OF RADIESTHESIA. Vol. 1 No.3. Kenward & Son. Feltwell, Norfalk, Eng. 10/ per annum; $1.65.

RESEARCH INSTITUTE, INC. Laboratories & Clinics. Dr. Henry Moray, D.Sc. 2484 South 5th East St., Salt Lake City, Utah. RADIANT ENERGY: same address. (Note: The Moray publications contain very important research material, of interest to all BSR Associates. No price stated; inquirers should send postage up to .25).

BIOMETRIC ANALYSIS OF THE FLYING SAUCER PHOTOGRAPHS. Archers' Court Research Group, Archers' Court, Hastings, England. An unusual but important approach to the 'saucer' problem. No price stated).

THE CASE AGAINST VACCINATION, by David Baxter. Pamphlet, 31 pgs. In lots of 10, each, 20¢. In lots of 100, .10 each. Address Chiropractic Home Pub. Co., 511-1st St., Dixon, Ill.

ELECTRONIC MEDICAL DIGEST; 2452 Van Ness Ave., San Francisco 9, Calif. Among other important material the issue for second Quarter (XXXVIII - 1) gives facts about the group of ten doctors who reported (favorably) on the Hoxsey Cancer Clinic. There is a 7-pg article on Living Tissue Rays, also nine pages on biography and accomplishments of Dr. Albert Abrams. This E.M. Foundation, along with the Wilhelm Reich Foundation and the Spears Sanitarium are under attack by the AMA and Government agencies seemingly subservient to it.

ORGONOMIC FUNCTIONALISM is "an independent scientific publication, integrating facts on the basis of the work of Dr. Wilhelm Reich." Vol. I No. 1 appeared in Jan. 1954. Bi-monthly. Single copies 2s/6d (.45): year, 15 s ($2.25). The Ritter Press, Alston, Alexandra Park, Nottingham, Eng. (Drawings and experiments with the Orgone Accumulator. Historical summary of Reich's work, etc. Since an injunction has been issued against the American Foundation, and books on the subject are difficult to obtain, this 45-page publication Orgonomic Functionalism is very valuable and deserves support.

"NEXUS"--(the 'official' publication of the Saucer & Unexplained Celestial Events Research Society) - published monthly. Address: Editor, James W. Moseley, P.O. Box 163-Fort Lee, New Jersey.- Price -- (subscription) per year: $1.00. - (currency, checks, or money orders only.)

-- For booklets of material by Gerald Light, please address: Mrs. Phyllis Nance -- 421 East 7th St., LONG BEACH 13, California (send direct to Mrs. Nance-not to G.Light)

PUBLICATIONS DEALING WITH AEROFORMS:

"Coming Of The Guardians" -- An interpretation of the 'Flying Saucers', as given from the 'other side' of life, through the deep-trance mediumship of Mark Probert. (Communications from the "Inner Circle"). --Including the Etheric or "4-D" explanation of the Aeroforms. -- Compiled by Meade Layne, M.A., (National Director, The Borderland Sciences Research Associates). --a B.S.R.A. publication, priced $2.00. -- Address: B.S.R.A., 3524 Adams Avenue, San Diego 16, California, U.S.A. (May, '54). -(about 60 pgs) -

"Mystery of the Ether Ships"--("And Its Solution")- a booklet on 'Flying Discs' -- - by Meade Layne, Director - Borderland Sciences Research Associates -- address: 3524 Adams Avenue, San Diego 16, California, U.S.A. - Price, $2.00.-(ab. 46 pgs.)

"Coming Of The Space People" - by Dr. Gilbert N. Holloway, D.D., Ph. D.- Various new data on 'Flying Saucers'. Issued at: The Holloway School, Box 27866, Los Feliz Station, Los Angeles 27, California, U.S.A. -

"The Saucerian", published by Gray Barker, Clarksburg, West Virginia.-P.O. Box 981.- -Single copies, 35¢. Subscription (6 issues) -$1.50. (a bi-monthly).

"Flying Saucers Have Landed"- by Desmond Leslie and George Adamski.- Published at: British Book Center, 420 West 45th St., New York 36, N.Y. - Price - $3.50.

"The Saucers Speak"- by Dr. Geo. H. Williamson & A. C. Bailey. Publishers: The New Age Pub. Co., 1542 Glendale Blvd., Los Angeles 26, Calif., U.S.A. -Price $2.00.

"Aboard A Flying Saucer"- by T. Bethurum. Pub. by: DeVorss & Co., 516 West 9th Ave., Los Angeles 15, Calif. - (192 pgs.) - Price: $3.00.

"Flying Saucers On The Moon" - by Harold T. Wilkins. Published by: The Citadel Press, -222 Fourth Ave., New York 3, N.Y. -Price $2.40 net.-(or order from: Markham House Press, 31, King's Road, London S.W. 3, England.-Price,-16 shillings, net.)-330 pgs.

"Les Soucoupes Volantes viennent d'un autre Monde"-book (French)- by Jimmy Guieu -- Publishers: c/o Jimmy Guieu, 27 rue Etienne - Dolet, Bondy, Seine, Paris, France.- (250 pages) paper bound. (price not certain, but can be obtained on inquiry from publisher, J. Guieu).

The White Sands Incident" ("A technician talks with a Space-Man, and rides in a 'Flying Saucer'.) - this book by: Daniel W. Fry. -Publishers, The New Age Pub. Co., -1542 Glendale Blvd., Los Angeles 26, Calif. - Price, $1.50. (70 pgs.) -

"C.R.I.F.O." (Civilian Research, Interplanetary Flying Objects)--Publication: "Newsletter". --Leonard H. Stringfield, Director. 7017 Britton Ave., Cincinnati 27, Ohio. -(or to: P.O. Box 1855, Cinn., Ohio.)-(monthly publication) (inquire of "Newsletter' for price-).

"Flying Saucers Researcher"- by Elliott Rockmore.-(Publisher of "Saucer Review") -- --address: G.P.O. Box 853 - Brooklyn 1, N.Y.

"Civilian Saucer Investigation" (N.Z.)-- C.P.O. Box 1914 - Auckland, New Zealand. - (H. H. Fulton, Ed.) -- "Flying Saucers", quarterly review of C.S.I. (N.Z.) - published every three months. Sub. now 7/- per 4 issues. (American subscribers $1.00). ---Edited and produced by H. H. Fulton-C.S.I. Headquarters, 1 Nissen Place -- Onehunga S.E. 5, Auckland, New Zealand.
